

BE 304

The new control unit BE 304 impresses with a compact housing and various mounting options. The raised buttons with a clear pressure point provide a very good surface feel. This control unit is optimally suited for undercover police operations as well as for other emergency and work vehicles with a basic set of functions. Due to its versatile functional options the BE304 can be optimally configured for any application area.

PRODUCT FEATURES:

- Compact synthetic housing
- 4 function buttons for operating CAN-compatible products
- Location and activation lighting
- horizontal or vertical positioning possible (4x1 or 1x4)
- Combination of various control units or as an additional keypad for other CAN control units
- Four-core connecting cable via cable harness to CAN components
- 12 V / 24 V
- Surface mounting variation; Rack mounting variation on request
- Includes analogue inputs and outputs

APPLICATION AREAS:

- Vehicles with reduced scope of warning functions
- Undercover police operation
- Simple fire engines
- Amber area: Construction vehicles, building yards, commercial vehicles in general, airports
- Individual switch replacement in CAN systems
