

The new control unit BE 304 impresses with a compact housing and various mounting options. The raised buttons with a clear pressure point provide a very good surface feel. This control unit is optimally suited for undercover police operations as well as for other emergency and work vehicles with a basic set of functions. Due to its versatile functional options the BE 304 can be optimally configured for any application area.

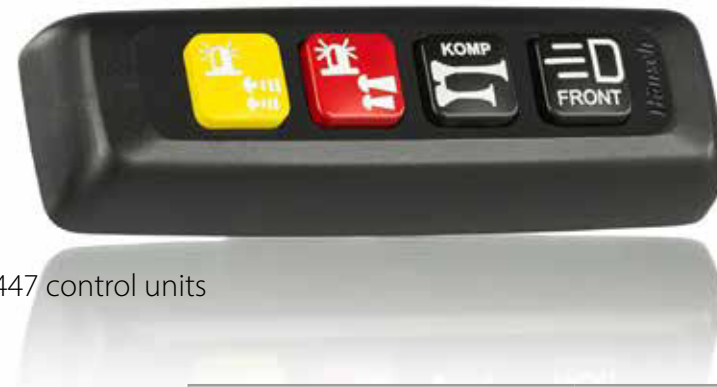

PRODUCT BENEFITS:

- compact plastic housing
- 4 buttons for controlling CAN447 products
- location and activation lighting
- horizontal or vertical positioning possible (4x1 or 1x4)
- combination of various control units or as an additional keypad for other CAN447 control units
- 4-core connection cable via cable harness to CAN447 components
- surface mounting variation; rack mounting variation on request
- including analogue inputs and outputs

APPLICATION AREAS:

- vehicles with reduced options of warning functions
- undercover police operation
- simple firefighter vehicles
- amber application: construction vehicles, commercial vehicles, airports
- replacement for single switches in CAN447 systems
